The schedules for all the Polish students will mostly be ready only on Friday 27.09.2019 before the weekend 28.09-29.09 and this is also when our teachers learn which classes they are going to have. This is so, because in our school we are almost until the end of September not sure if we will have enough students to teach in different faculties. So do not worry if you do not know where to go this week. Most of your meetings with the teachers will be organized on an individual basis, as you will not need to go to any Polish-speaking theoretical classes. You will have many appointments with the coordinator about your schedules in first weeks of October, especially medical students, and as soon as you learn where to go, you go!

However the English Philology Students should definitely join the classes in that week – and you can use your mentor’s help here!
